HP EliteDisplay E243d 23.8-inch Docking Monitor

Make the most of your desk with streamlined USB-C™[1], network, and accessory connectivity, plus a pop-up HD webcam, with the HP EliteDisplay E243d 23.8-inch Docking Monitor, our most advanced 23.8" docking display.

Maximum efficiency in a modern, minimalist footprint

- Create a command center from a display and built-in docking station that's ready to drive your workspace as soon as you plug in. Power your notebook and send and receive video over driverless USB-C™.[1] Connect your wired network through the RJ-45.

Control your window to the world

- Videoconferencing[3] is fast and easy with our first docking display with a privacy webcam that retracts into the bezel to help deter remote visual hacks. Conveniently plug your headset into the display to join web calls.[3]

Expand your view

- Experience a virtually seamless dual-display setup with 3-sided micro-edge bezels when you daisy chain a second display from a single USB-C™ connection on your PC.[5]
Featuring

- Save time by leaving your USB devices connected to one of the 4 USB 3.0 ports, and access your network through the RJ-45. Maintain legacy compatibility with VGA, HDMI, and DisplayPort™ out ports.
- Work comfortably with adjustable tilt, height, and swivel settings. Use pivot rotation to conveniently customize portrait or landscape views.
- Do even more with an easy clean desk solution. Attach your HP EliteDesk Mini Desktop PC directly behind the display and power it through the USB-C™ connection.
- Design the screen for how you work with HP Display Assistant software, which enables screen partitioning and helps deter theft by dimming a display that's disconnected without approval.
- Rest assured that your IT investment is supported by a three-year standard limited warranty.
